ABOUT ME

Since my first web project rendered in the browser, I've been captivated by web development. The engaging challenge and level of detail is something that I've become truly passionate about. Below are recent projects I've completed that showcase my skillset as a web developer.

EDUCATION

2018 • Juno College of Technology
Advanced Javascript

2014 • York University • 3.8 GPA
Master of Arts • Thesis in Musicology

2010 • University of Toronto • 3.3 GPA
Bachelor of Arts • Music Performance

EXPERIENCE

Blackjack • https://noel-thomson.github.io/blackjack-app/
• Built from scratch with raw Javascript, fully responsive across all devices
• Allows a user to play a true-to-form games of blackjack against another player
• Manipulates the HTML DOM to display cards, scores, feedback and animations
• Incorporates audio effects for an enhanced user experience

Product Landing Page • https://noel-thomson.github.io/spotify-landing-page/
• Optimized for mobile and fully responsive across all screen sizes and devices
• Built using best practices in HTML5 and CSS development
• Incorporates transition effects for an enhanced user experience
• Design influenced by Spotify brand aesthetic

Promotional Email • https://noel-thomson.github.io/kayak-email-campaign/
• Fully responsive across all major email platforms (Apple, Gmail, Outlook, Yahoo)
• Built using best practices in table-based HTML5, XHTML and CSS development
• Added design responsiveness for mobile and smaller screen sizes
• Layout influenced by Kayak digital marketing aesthetic

CAPABILITIES

HTML		Node.js	
CSS		Express.js	
Javascript		MongoDB
