ABOUT ME

I'm a front end web developer with a lifelong passion for technology. I'm highly conversant with React, ES6 JavaScript, Sass/CSS3, HTML5, Express, NodeJS and MongoDB. I have excellent problem solving, creative and collaborative skills and thrive on new challenges.

EDUCATION

2018 • Juno College of Technology
Advanced Javascript

2014 • York University • 3.8 GPA
Master of Arts • Thesis in Musicology

2010 • University of Toronto • 3.3 GPA
Bachelor of Arts • Music Performance

EXPERIENCE

Apple.com Home Page • noel-thomson.github.io/apple-landing
• A full recreation of Apple's home page using assets from the original website
• Written with custom HTML and Sass
• Fully responsive across all screen sizes
• Source code: github.com/noel-thomson/apple-landing

Film Search Database • noel-thomson.github.io/movie-database-app
• Allows users to search for key info about any movie found within the omdb API
• Created with Javascript, HTML, Sass and Bootstrap
• Responsive across all screen sizes
• Source code: github.com/noel-thomson/movie-database-app

Blackjack • noel-thomson.github.io/blackjack-app
• Allows two users to play blackjack with one another
• Custom javascript for game logic and DOM manipulation
• Incorporates CSS animations and audio effects
• Source code: github.com/noel-thomson/blackjack-app

E-commerce Website • mern-pro-shop.herokuapp.com
• A full stack application allowing users to view product pricing and information
• Created with React/Redux, Express, NodeJS and MongoDB
• Responsive across all screen sizes
• Source code: github.com/noel-thomson/mern-ecommerce-store
